Thanks for purchasing one of our kits, this kit requires **GEL** Glue.

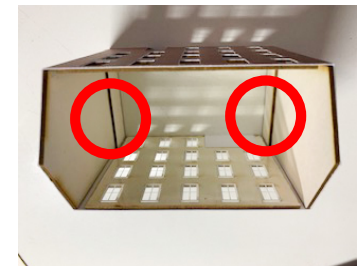

Glue the plain thick card to the back of the red brick walls as shown left, do both.

Then cut the windows and doors out and glue as shown left. Glue two of the oblong thick pieces of card to the bottom of the thick plain gables as shown right.

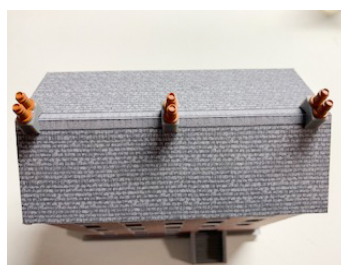

Glue the red brick walls together using the thick gables as shown left, it will look like the pic on the right once completed. Run a line of glue on top both supports and push a floor in place'

Once the first floor is in, glue another 2 supports and the next floor and so on. Glue the 2 roof supports to the inside of the gables as shown left, the to cover the join glue the 2 red brick gables as shown left.

Glue the 2 plastic barge boards to the top of the gables as shown left, then run a line of glue on top all edges and fix the roof.

Then the chimneys and then glue the building inside the plastic floor.
