Thanks for purchasing one of our kits, this kit requires **GEL** Glue.

## Engine Shed

Now glue the windows to the roof section.

To fix the roof, run a line of glue along all the edges on the building, let the glue for a couple of minutes then put in place, make sure walls are square.

Then the Chimneys..

Thanks for purchasing one of our kits, this kit requires **GEL** Glue.

## Engine Shed

Firstly Glue the two doors in the recess to give them time to set.

Glue the brick card to the walls as shown left, then cut the windows out and glue as shown right.

Then the round window to the gable then cut the door out and fix as shown left. Then run a line of glue down both edges of the 2 gables as shown right.

If you use a Gel glue such as Collall this part will be easy, as shown left the 2 side walls go on the inside. Now cut out and glue the roof windows shown right.
