

Thanks for purchasing one of my kits,
This kit just requires glue.

Left, glue the card window frame to the inside of the brick walls x2 they only fit one side so put in place before gluing. Right, now cut the windows out (in one sheet) and glue as shown right, again put in place first they only fit one way.

Cut the doors out and fix as shown left. Use x2 of the oblong small pieces of plain card and glue to the bottom of the large plain gables, make sure they are flush to the bottom and center.

Now you can glue the walls together using the plain gables making sure the floor supports are on the inside as shown left, fix the other end the same to form the building shown right.

Now run a line of glue on top of the 2 floor supports and push the floor in place as shown left, now use the last 2 small oblong pieces of plain card and glue as shown right, Glue together

Now glue the 2 room dividers to the top floor as shown left. Now glue the x2 brick gables one each end to cover the join shown right.

Glue the canopy support flush with the upper window sills.
